This technical drawing illustrates the assembly of a chair frame. The main structure consists of a rectangular frame with four legs. The assembly process involves installing horizontal slats (labeled N1) and vertical supports (labeled N). The slats N1 are shown being inserted into the frame, secured by screws (labeled O). The vertical supports N are also shown being inserted into the frame, secured by screws (labeled O). The drawing uses isometric perspective to show the three-dimensional structure and the placement of the components.

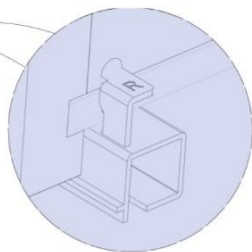

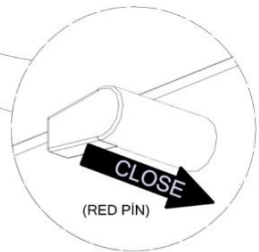

Diagram illustrating the assembly of the bottom rail with the base frame. The rail is shown being inserted into the frame. A circular inset shows the rail in the 'CLOSE' position, secured by a red pin.
